

MTI TRACKPRO

Single Use Temperature Data Logger

TRACKPRO Disposable USB Temperature Data Logger plays a critical role in cold-chain transportation for perishable products, particularly food items. Maintaining an uninterrupted cold chain helps ensure optimum quality and shelf life.

For pharmaceutical, meat, seafood, and frozen goods, it is essential to maintain strict temperature limits to inhibit microbial growth. For fruits, vegetables, & flowers, proper temperature management prevents premature ripening and preserves freshness. These products require precise post-harvest environmental monitoring to maintain quality from farm to table.

All temperature-sensitive goods must be monitored and recorded during handling, storage, and transportation to ensure safety, quality, and extended shelf life—especially for produce, dairy, seafood, meat, poultry, and floral products.

The USB temperature report provides essential evidence for both product owners and cold-chain carriers in case of any temperature-related disputes.

MeasureTest offers comprehensive temperature and temperature-humidity monitoring solutions, ensuring every change within the cold chain is traceable. Options include irreversible PDF reports, CSV data logs.

FEATURES

- Long shelf life.
- Ensures long-term reliability and stable performance. High accuracy $\pm 0.5^{\circ}\text{C}$ (across the full range).
- Designed to maintain $\pm 0.5^{\circ}\text{C}$ accuracy over the entire measuring range of -30°C to $+70^{\circ}\text{C}$, suitable for temperature-sensitive products.
- Automatic report generation via integrated USB
- Plug directly into a computer to download data—no cables or readers required. optional mobile-based report generation is also available.
- Factory programmed and calibrated.
- All parameters are pre-set and calibrated before dispatch. Users simply press the start button to begin monitoring.
- Long battery life & large memory.
- Operates up to 300 days and stores up to 129,600 readings. Duration options range from 7 to 300 days for MTI Trackpro data loggers.
- Food-grade packaging with IP67 protection.
- Safe for direct contact with food and pharmaceuticals. The protective packaging meets IP67 standards, ensuring strong water and dust resistance.

TECHNICAL SPECIFICATIONS

Model	MTI Trackpro THD	MTI TRACKPRO T1
Battery Life	Up to 120 days	Up to 300 days
Shelf Life	2 years	3 years
Memory	Up to 65000 readings	Up to 129,600 readings
Display	LCD/LED indicator	LED indicator
Weight	27.5 g	11 g
Dimensions	94 mm × 41 mm × 8 mm	67 mm × 27 mm × 5 mm
Protection Rating	Ip65	Ip67
Type	Single-use	
Temperature Range	30°C to +70°C	
Accuracy	$\pm 0.5^{\circ}\text{C}$ F.S.	
Humidity Range	0%~100%RH	
Accuracy	$\pm 3\%$ RH	
Resolution	0.1°C	
Logging Interval	Customizable	
Start Delay	Customizable	
Report Format	PDF / CSV / PDF + CSV	
Alarm Settings	Customizable	
Battery	3.0V CR2032	
Connection	USB	
Compatible OS	Windows, macOS	
Certifications	CE, RoHS, EN12830	

Mumbai:
Unit No 2054 A, 2nd Floor,
Q wing, Akshar Business Park,
Plot No 3, Sector 25, Vashi,
Navi Mumbai - 400 703.

Huderabad:
G-1, Sankar Sadan, Plot No. 45,
Bhagyanagar Colony Phase 2,
Near Shiv Parvati Cinema,
Kukatpally, Hyderabad - 500 072.
040-4021 2388

Bangladesh:
House No 16, 5th Floor,
Road No 19, Sector 13,
Uttara, Dhaka-1230,
Bangladesh.
